

How to Download the World Health Organization Software to your computer to analyze the Nutritional Status of Children and Communities:

Anthro Software for age 0-60 months: Free Download from WHO website

Free Download from WHO website

Child Growth Standards 0-60 months

[WHO Anthro Survey Analyser and other tools](#)

Then while at that site, click on WHO Anthro exe

This will download the program to your computer.

This may be saved to your Local Disk C as “WHO”. We recommend that you send it to your desktop as a shortcut, for easy access.

Study the manuals and all of the supporting materials. Practice and become familiar with the programs before you start using them in your work.

AnthroPlus Software for age 5-19 years:

Free Download from WHO website

Child Growth Reference: 5-19

[Growth reference data for 5-19 years](#)

To download the program, click on Application Tools, then download software:
